

Product Data Sheet

Product and Chemical Description

Product Name: Oil Pro CLD-4
Chemical Name: Defoamer
Company Name: ARC Products Inc
Address: 4010 La Reunion Parkway
Suite 160
Dallas, TX 75212
Telephone Number: (214) 638-2468

Product Application and Uses

Oil Pro CLD-4 is defoamer based on a hydrophobically modified silica dispersed and suspended in a non-reactive organic continuous phase. The product was developed for cement but will provide defoaming and antifoaming performance in other applications. The pour point of the product is extremely low so there are no concerns about storage and use in cold climates. Oil Pro CLD-4 was formulated for excellent storage stability without concerns of product settling or gelling.

Typical Properties

Appearance	Hazy off white to light blue liquid
pH, (5% solution)	6 - 8
Density	7.3
Flash point (°C)	>93.3
Pour point (°C)	<-40C

Storage and Handling

Storage Keep out of direct sunlight and cold.

Handling Use appropriate personal protective equipment when working with Oil Pro CLD-4. Do not get into eyes, on skin, ingest or inhale mist generated during the use of the product. Try to prevent the generation of mist during use of the product. Make sure that proper ventilation and eye washes/safety showers are present in the immediate work area. Do not flush product into the sewer system.
