Product Data Sheet

Oil Pro HSS-2

Chemical Description MEA Triazines 62%

General Information Oil Pro HSS-2 is a hydrogen sulfide scavenger concentrate for drilling, flowline, and bubble tower applications to react rapidly with hydrogen sulfide and form stable, non-hazard reaction products. A typical recommendation for a field blend for gas treating would consist of diluting the product 25% - 50% with fresh water and methanol.

Material Properties

Appearance:	Clear to light yellow Liquid
Activity, wt%:	62
Methanol, wt%:	<1
pH Value (1%):	9.5 – 11
Flash Point, °F:	>200
Specific Gravity:	1.11 (typical)

Solubility (10%)

Water	Soluble
IPA	Soluble
Kerosene	Insoluble
Aromatic	Insoluble

Standard Package Oil Pro HSS-2 is available in bulk, in 55 gallon drums or in 330 gallon totes.

Storage & Handling Stored in closed containers below 110 °F.
